ELSEVIER

Int. J. Production Economics 53 (1997) 335–336

international journal of
production
economics

Contents Volume 53

Vol. 53, No. 1

The effect of learning and forgetting on the economic manufactured quantity (EMQ) with the consideration of intracycle back-orders
M.Y. Jaber and M. Bonney 1
On the cost of using capacity flexibility – a dynamic programing approach
J. Wijngaard and G.J. Miltenburg 13
Approaches to risk and uncertainty in the appraisal of new technology capital projects
F. Lefley 21
Extending the enterprise through multi-level supply control
P. van der Vlist, J.J.E.M. Hoppenbrouwers and H.M.H. Hegge 35
Integrating manufacturing and management accounting strategy: Case study insights
M. Tayles and P. Walley 43
Maintaining optimal inventory level by feedbacks
K. Matsuyama 57
A measurement of the resource utilization efficiency of university libraries
T.-y. Chen 71
A deteriorating inventory model with a temporary price discount
H.-M. Wee and J. Yu 81
Scheduling with bicriteria: total flowtime and number of tardy jobs
S.K. Kondakci and T. Bekiroglu 91
Scheduling with priority dispatching rules and drum-buffer-rope in a recoverable manufacturing system
V. Daniel and R. Guide Jr. 101
Diary of Events 117

Vol. 53, No. 2

A knowledge-based decision support system for cost estimation and pricing decisions in versatile manufacturing companies
B.G. Kingsman and A.A. de Souza 119
Strategic evaluation of advanced manufacturing technology
M. Kakati 141
Production planning and scheduling for injection moulding of pipe fittings: A case study
N. Nagarur, P. Vrat and W. Duongsuwan 157
An EOQ model with stock-dependent demand, shortage, inflation and time discounting
J. Ray and K.S. Chaudhuri 171
A heuristic for component switching on SMT placement machines
M. Gronalt, M. Grunow, H.O. Günther and R. Zeller 181
An empirical study of the relationship between production technology and maintenance management
L. Swanson 191
An exploration of the impact of TQM and JIT on ISO 9000 registered companies
B.E. Withers, M. Ebrahimpour and N. Hikmet 209

0925-5273/97/$17.00 Copyright © 1997 Elsevier Science B.V. All rights reserved

Markov-modulated Poisson processes for multi-location inventory problems
W.K. Ching 217
Diary of Events 225

Vol. 53, No. 3

Fuzzy production planning model for fresh tomato packing
W.A. Miller, L.C. Leung, T.M. Azhar and S. Sargent 227
Analysis of cellular and functional manufacturing systems in the presence of machine breakdown
R. Logendran and D. Talkington 239
A generalised cost-estimation model for job shops
A. Aderoba 257
An extension of Rahim and Banerjee's model for a process with upper and lower specification limits
K.S. Al-Sultan and M.A. Al-Fawzan 265
Lot-sizing rules and freezing the master production schedule in material requirements planning systems
X. Zhao and K. Lam 281
The impact of process control technology on Turkish chemical industry
D.C. Karaomerlioglu 307
Delivery and trade-offs
M. Szwejczewski, J. Mapes and C. New 323
Diary of Events 331
